

GROUP PROJECT

Congratulations on your new team and getting to start this group project!

For the team leader: Well done for being selected as the leader. Now, with great power comes great responsibilities. It's time to prove your leadership.

For the team members: Well done for being selected as the team members. You are valuable to your team to make sure the best project is delivered.

Let's start the work!

General description

This project is divided into 3 parts. Each part will have its specific dateline and must be submitted according to the milestones.

All submission is softcopy via Google Classroom.

Part 1: Create the business strategy

- i) Create a business for your team. It can be based on the product of one or a combination of your team members FYP.
- ii) Set the company business plan by using the business plan template. The business plan will be referred for planning the IT strategy, tactical and operation.
- iii) Submit a report of the business profile and strategic plan.
